## CULTURAL CONNECTIONS

**Studio Ahead, a San Francisco-based collective founded by Homan Rajai and Elena Dendiberia, traverses the Silk Road, with design sensibilities based between their respective Iranian and Russian backgrounds. Their work is rooted in raw and refined, foreign and familiar, modern-day local culture and deep artistic and craft traditions. Each product - the collection includes beds, chairs, tapestries, headboards, stools and mirrors - is built with a framework of aesthetic multiculturalism.**
